PROFILE

I am a Manual & Automation Testing Engineer with over 3+ years of experience in testing web and mobile applications. Skilled in test case design and bug reporting, I use tools like Postman and Playwright (Basics) to ensure software reliability. Experienced in Agile methodologies, I effectively work in fast-paced development environments to deliver high-quality results.

WORK EXPERIENCE

Software Testing Engineer - Onelap Telematics Pvt. Ltd., Noida March 2023 - Present.

- Tested Web, CRM, and mobile apps across desktop and mobile views to ensure functionality and stability
- Executed UI, regression, and API testing using Postman with SQL data validation
- Performed basic automation testing using Playwright to improve test coverage and efficiency
- Collaborated with developers to resolve bugs, ensuring reliable GPS tracking and Dashcam performance

SKILLS

- Manual Testing (Smoke | Sanity | Regression | Functional | UI | Integration | System | UAT | Agile Methodology)
- API Testing: Postman | Grafana (API Monitoring, Log Analysis & Performance Tracking)
- CRM Testing | E-commerce Testing |
- Web Testing | Mobile Testing (iOS & Android) |
- Agile/Scrum | SDLC | STLC |
- SQL: Basic knowledge of tables, keys, joins, CRUD operations, and simple queries.
- JIRA | Trello (Bug Tracking, Test Case Management)
- Python (For Loops | String Operations | OOPs - Basics)
- HTML | CSS | JavaScript
- Built and generated Flutter Android App Bundle (AAB) and successfully uploaded it to Google Play Console.
- Managed iOS app deployment using Xcode for build generation and publishing.
- Framework Development: Designed and implemented a Page Object Model (POM) structure to improve code maintainability and reusability.
- BDD Implementation: Developed Gherkin feature files and Pytest-BDD step definitions for end-to-end testing of complex web flows.
- CI/CD Integration: Configured Jenkins jobs with custom workspaces and automated triggers for scheduled and commit-based execution.

PROJECT HIGHLIGHTS

Manual & Playwright Testing – www.onelap.in

- Performed manual testing and implemented Playwright automation to validate UI elements, responsiveness, and end-to-end Shop module purchase flow.
- Tested end-to-end order workflows including cart, coupon application, price calculation, multiple payment methods, and CRM order verification

Manual Testing – GPS Tracking & Dashcam Solutions (https://play.google.com/store/apps/details?id=in.onelap.gpstracker&pcampaignid=web_share)

- Manual testing of Dashcam & GPS features on Android & iOS
- Verified GPS tracking, live location, and route accuracy
- Tested dashcam recording, playback, and downloads
- Validated login, device pairing, and app-hardware connectivity
- Performed API testing (Postman) and defect tracking in JIRA
- Executed Smoke, Functional, Regression, and UI testing
- Tested app under various network conditions and ensured stable releases
- Successfully ensured stable app performance and rapid bug resolution across various applications used by over 200,000 active users.

Manual Testing – Onelap CRM (<https://r.onelap.in>, <https://web.onelap.in>)

- Performed comprehensive manual testing on multiple Onelap CRM modules. These CRMs were actively used by Support Members and Sales Members to assist customers efficiently. Validated end-to-end workflows across different modules, ensuring smooth customer handling, issue resolution, and sales operations.

EDUCATION

- B.C.A - BRABU, Muzaffarpur – 60.62% (2017–2020)
- Intermediate PCM – R.R.S. College – 52.00% (2017)
- Matriculation - H.H. School, Raxaul – 65.00% (2014)
